IMPULSA

UAS OPERATOR NUMBER

Dear NACs and modeller friends,

We have contacted different authorities and EASA representatives in Spain. All the necessary information can be summarized as follows:

- Founder members of EASA have such status and their certificates are valid in all country members.
- Residents in countries members of EASA or those countries having working or collaboration agreements can issue their own certificates which are valid in all country members.
- Thus, Israel, Liechtenstein, UK and San Marino are entitled to enter providing certificates from their local authorities.
- In the event some contestant from a Non-EU country wants to enter the competition, organizers can provide registration on arrival in the EASA web.
- Each contestant is responsible to issue the valid certificate and display compulsory the number on the plane.

In case you have any questions, do not hesitate to contact us. We would be glad to assist you.
